

Objectives of Project

AIM:

To write the objectives of cloud-based ~~IoT~~ ~~data~~ ~~monitoring~~ course Content Management System.

Objective:

- To develop a web-based platform that allows administrators to create, manage, and organize course content efficiently.
- To store course materials such as video, documents and assignments in a scalable cloud storage system for easy access and management.
- To implement a secure user authentication system for students and administrators with role based access control.
- To enhance system performed in terms of reliability & scalability using cloud infrastructure.
- To design and develop an interactive dashboard for students to view courses, track progress and access learning materials.

RESULTS:

Thus, The objectives of project have been established.
